

Dynamic Committee Synthesis - Rules 2022

We kindly ask you to find below a summary of the main changes concerning the competitors. In case of any doubts, please refer to the official rules (spot the bar in the margin) or feel free to send a mail to the Dynamic Committee

→ visit our web page : <https://www.dynamicflying.com>
(tournament brackets, draw generator, mail box, current rules)

MAIN NEW RULES (effective 1st May 2022)

1. **Junior Performers** have priority for training between 08:00 am and 18:00 pm (local time of the competition).
2. **Speed settings:** a new form is created (Addendum E, check at the end of the rules) and **MUST** be delivered prior to the start of the competition to the Event Judge. It indicates the initial Speed Settings (Speed and Free). The same form must be used during the comp. to modify the settings

The speed setting will be indicated and visible to the Performers. If the Speed is not correct, the Performers indicate to the organizer (driver) that it is not consistent.

3. **The Draw** may be done electronically using an official draw generator (visit our web page : <https://www.dynamicflying.com>)

4. **Free routine** may start and/or end at the location chosen by the teams (Antechamber floor, the cable floor, or from any other predetermined place in the flight chamber). It must be stated in the Addendum D that must be handed over to the Judges.

5. **Vertical Bust:** at the beginning of the Vertical the centerline is not more strictly applied as long as while flying over the Ring, a performer must be, at some time, strictly on his/her side of the centerline before reaching the Ring Plane. In clear words, at the beginning of a Vertical a competitor may touch the centerline **if** he strictly clears this line before touching the Ring Plane.

6. **New moves** : In D2W and in D4W : Crossing Classic (V-6) and Head-down inface shuffler (M-8): please refer to the Rules. For those new moves, the Centerline applies.

→ Check the videos here:

- Head-down inface shuffler : <https://youtu.be/5Z8dwdHjFFY>
- Crossing Classic: <https://youtu.be/4vdUwzCgqzg>

7. **Desynchronisation Bust (D2W)** : a bust will only apply if half the tunnel delimited by the Sidelines strictly separates the two competitors.

Have a look at the diagram illustrating for a Vertical the new rule (remember that this bust applies for all patterns).

Desynchro Bust : eg Vertical
